#### **CHAIRMAN'S STATEMENT**

#### Key highlights for the six months ended 30 June 2018

This report sets out the results of Argo Group Limited (the "Company") and its subsidiaries (collectively "the Group" or "Argo") covering the six months ended 30 June 2018.

- Revenues US\$2.2 million (six months to 30 June 2017: US\$2.3 million restated)
- Operating loss US\$0.6 million (six months to 30 June 2017: US\$0.7 million restated)
- Loss before tax US\$0.7 million (six months to 30 June 2017: profit US\$1.1 million restated)
- Net assets US\$23.8 million (31 December 2017: US\$24.7 million)

#### The Group and its investment objective

Argo's investment objective is to provide investors with absolute returns in the funds that it manages by investing in, inter alia, fixed income, special situations, local currencies and interest rate strategies, private equity, real estate, quoted equities, high yield corporate debt and distressed debt, although not every fund invests in each of these asset classes.

Argo was listed on the AIM market in November 2008 and has a performance track record dating back to 2000.

#### Business and operational review

For the six months ended 30 June 2018 the Group generated revenues of US\$2.2 million (six months to 30 June 2017: US\$2.3 million restated) with management fees accounting for US\$2.1 million (six months to 30 June 2017: US\$2.1 million). Under IFRS 15, which became effective from 1 January 2018, performance fees for the Argo Funds can only be recognised at the crystallisation date, when performance fees become due and payable, which is currently 31 December. Thus, performance fees can be recognised at year end but not at the interim date. Revenue for the comparative period has been restated to be in line with the new standard. The impact of the restatement is set out under Note 15.

Total operating costs for the period, ignoring bad debt provisions, are US\$2.1 million compared to US\$1.9 million for the six months to 30 June 2017. The Group has provided against management fees of US\$0.6 million (€0.5 million) (six months to 30 June 2017: US\$0.8 million (€0.8 million)) due from AREOF. In the Directors' view these amounts are fully recoverable however they have concluded that it would not be appropriate to continue to recognise income without provision from these investment management services as the timing of such receipts may be outside the control of the Company and AREOF.

Overall, the financial statements show an operating loss for the period of US\$0.6 million (six months to 30 June 2017: loss US\$0.7 million restated) and a loss before tax of US\$0.7 million (six months to 30 June 2017: profit US\$1.1 million restated) reflecting the net loss on investments of US\$0.2 million (six months to 30 June 2017: net gain US\$1.7 million).

At the period end, the Group had net assets of US\$23.9 million (31 December 2017: US\$24.7 million) and net current assets of US\$23.4 million (31 December 2017: US\$24.2 million) including cash reserves of US\$4.3 million (31 December 2017: US\$5.0 million).

Net assets include investments in TAF, AREOF, Argo Special Situations Fund LP and ADCF (together referred to as "the Argo funds") at fair values of US\$10.4 million (31 December 2017: US\$10.6 million), US\$0.1 million (31 December 2017: US\$0.1 million), US\$0.03 million (31 December 2017: US\$0.03 million) and US\$8.1 million (31 December 2017: US\$4.2 million) respectively.

#### **CHAIRMAN'S STATEMENT (continued)**

#### Business and operational review (continued)

At the period end the Argo funds (excluding AREOF) owed the Group total management and performance fees of US\$0.4 million (31 December 2017: US\$6.2 million).

The Argo funds (excluding AREOF) ended the period with Assets under Management ("AUM") at US\$148.6 million. The Group invested a further \$4m in ADCF in February 2018. The current level of AUM remains below that required to ensure sustainable profits on a recurring management fee basis in the absence of performance fees. This has necessitated an ongoing review of the Group's cost basis. Nevertheless, the Group has ensured that the operational framework remains intact and that it retains the capacity to manage additional fund inflows as and when they arise.

The average number of permanent employees of the Group for the six months to 30 June 2018 was 20 (30 June 2017: 23).

The Group has provided AREOF with a notice of deferral in relation to amounts due from the provision of investment management services, under which it will not demand payment of such amounts until the Group judges that AREOF is in a position to pay the outstanding liability. These amounts accrued or receivable at 30 June 2018 total US\$ Nil (31 December 2017: US\$ Nil) after a bad debt provision of US\$8.5 million (€7.3 million) (31 December 2017: US\$8.2 million), €6.8 million). AREOF continues to meet part of this obligation to the Argo Group as and when liquidity allows. In November 2013 AREOF offered Argo Group Limited additional security for the continued support in the form of debentures and guarantees by underlying intermediate companies. The AREOF management contract expires on the later of its termination or the sale of all assets in the Portfolio. The life of the fund is due to expire on 30 June 2034.

#### **CHAIRMAN'S STATEMENT (continued)**

#### Fund performance (continued)

Developments in the US continued to dominate the headlines and investor sentiment, as the world's biggest economy entered its ninth year of expansion and expenditure by consumers, businesses and government all gained momentum Against this backdrop the Federal Reserve lifted its 2018 GDP guidance as it raised its target range for the federal funds rate in June by 25 basis points, the second rate increase this year. Faster growth has helped drive the US unemployment rate to an 18-year low and lift earnings. One of the larger investor concerns is therefore that the economy could bump up against capacity restraints and overheat, and with inflation levels rising, one of the Federal Reserve's tasks is to raise interest rates just enough to keep prices from increasing faster, but not so much as to smother growth and tip the economy into a recession. Political developments in the EU and elections in key emerging markets such as Turkey and Mexico also sparked apprehension at times in the first half of 2018, though these concerns appeared to be mostly shrugged off by markets before period-end. More worrying though was the emergence of trade tensions between the US and China which taken together with the ongoing renegotiation of the North America Free Trade Agreement has given rise to fears of a global tariff war and the impact that would have on world trade volumes and hence emerging market economies, particularly those which enjoy export-led growth. Nevertheless, the IMF recently updated its World Economic Outlook and against global expansion of 3.9% this year and next, it projects growth rates of 4.9% for 2018 and 5.1% for 2019 for emerging and developing countries.

Against this background, it is not surprising that after posting reasonable gains in the previous two years, emerging markets faltered in the first half of 2018; for example, the JP Morgan EMBI+ emerging market bond index fell by around 6% in that period compared with rises of 9.6% and 8.3% respectively in 2016 and 2017. TAF is the Group's flagship fund and has an 18 year track record. TAF's focus is on liquid bond securities, both sovereign and corporate, but the long/short strategy pursued by TAF allows it to adjust more quickly to a dynamic macroeconomic environment. Whilst the first quarter started positively, the overall decline of 1.95% in the period under review is disappointing: however, the Board believes it compares favourably with its peers and long-only funds dedicated to emerging market foreign exchange and bonds. The performance of ADCF, which concentrates on less liquid distressed positions, was largely unchanged as it awaits a realisation from its biggest position which comprises a petrochemicals asset in Asia. The ASSF declined by 1.9% principally due to the cost of debt funding.

As mentioned previously, the Group's marketing efforts have been bolstered and for the time being are concentrated on TAF. Whilst the recent risk sell-off may deter some investors, others may identify a more attractive entry level and the Board believes emerging markets continue to offer attractive investment opportunities.

#### **Dividends**

The Group did not pay a dividend during the current or prior period. The Directors intend to restart dividend payments as soon as the Group's performance provides a consistent track record of profitability.

#### Outlook

The Board remains optimistic about the Group's prospects based on the transactions in the pipeline and the Group's initiatives to increase AUM. A significant increase in AUM is still required to ensure sustainable profits on a recurring management fee basis and the Group is well placed with capacity to absorb such an increase in AUM with negligible impact on operational costs.

Boosting AUM will be Argo's top priority in the next six months. The Group's marketing efforts will continue to focus on TAF which has a 18-year track record as well as identifying acquisitions that are earnings enhancing.

Over the longer term, the Board believes there is significant opportunity for growth in assets and profits and remains committed to ensuring the Group's investment management capabilities and resources are appropriate to meet its key objective of achieving a consistent positive investment performance in the emerging markets sector.

# STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The Directors are responsible for preparing the condensed consolidated interim financial statements in accordance with applicable law and regulations. In addition, the Directors have elected to prepare the condensed consolidated interim financial statements in accordance with International Financial Reporting Standards (IAS 34: Interim Financial Statements).

The condensed consolidated interim financial statements are required to give a true and fair view of the state of affairs of the Group and of the profit or loss of the Group for that period.

In preparing condensed consolidated interim financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with International Financial Reporting Standards; and
- prepare the condensed consolidated interim financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Group and to allow for the preparation of consolidated financial statements. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation governing the preparation and dissemination of financial statements may differ from one jurisdiction to another.

#### 2. ACCOUNTING POLICIES

#### (a) Basis of preparation

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2017.

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2017.

These condensed consolidated interim financial statements were approved by the Board of Directors on 31 July 2018.

#### b) Financial instruments and fair value hierarchy

The following represents the fair value hierarchy of financial instruments measured at fair value in the Condensed Consolidated Statement of Financial Position. The hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement

#### 4. SHARE-BASED INCENTIVE PLANS

On 14 March 2011 the Group granted options over 5,900,000 shares to directors and employees under The Argo Group Limited Employee Stock Option Plan. All options are exercisable at 24p per share within 10 years of the grant date.

The fair value of the options granted was measured at the grant date using a Black-Scholes model that takes into account the effect of certain financial assumptions, including the option exercise price, current share price and volatility, dividend yield and the risk-free interest rate. The fair value of the options granted is spread over the vesting period of the scheme and the value is adjusted to reflect the actual number of shares that are expected to vest.

The principal assumptions for valuing the options are:

Exercise price (pence)	24.0
Weighted average share price at grant date (pence)	17.0
Weighted average option life (years)	10.0
Expected volatility (% p.a.)	15.0
Dividend yield (% p.a.)	10.0
Risk-free interest rate (% p.a.)	0.907

The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The total charge to employee costs in respect of this incentive plan is f nil (30 June 2017: f nil)

The number and weighted average exercise price of the share options during the period is as follows:

	Weighted average exercise price	No. of share options
Outstanding at beginning of period	24.0p	4,340,000
Granted during the period	-	-
Forfeited during the period	-	-
Outstanding at end of period	24.0p	4,340,000
Exercisable at end of period	24.0p	4,340,000

The options outstanding at 30 June 2018 have an exercise price of 24p and a weighted average contractual life of 3 years. Outstanding share options are contingent upon the option holder remaining an employee of the Group.

No share options were issued during the period.

#### 14. RELATED PARTY TRANSACTIONS

Most Group revenues derive from funds or entities in which one of the Company's directors, Kyriakos Rialas, has an influence through directorships and the provision of investment advisory services.

At the reporting date the Company holds investments in The Argo Fund Limited, Argo Real Estate Opportunities Fund Limited ("AREOF"), Argo Special Situations Fund LP and Argo Distressed Credit Fund Limited. These investments are reflected in the accounts at fair value of US\$10.4 million, US\$0.1 million, US\$0.03 million and US\$8.1 million respectively.

The Group has provided AREOF with a notice of deferral in relation to the amounts due from the provision of investment management services, under which it will not demand payment of such amounts until the Group judges that AREOF is in a position to pay the outstanding liability. These amounts accrued or receivable at 30 June 2018 total US\$ Nil (31 December 2017: US\$ Nil) after a bad debt provision of US\$8.5 million (€7.3 million) (31 December 2017: US\$8.2 million, €6.8 million). In November 2013 AREOF offered Argo Group Limited additional security for the continued support in the form of debentures and guarantees by underlying intermediate companies. Argo Group Limited retains this additional security.

At the period end the Argo Group is also owed loans repayable on demand of US\$2.2 million (€1.8 million) (31 December 2017: US\$2.0 million, €1.7 million) by AREOF accruing interest at 10%. The Company is also owed a further amount of US\$0.4 million (€0.4 million) (31 December 2017: US\$0.7 million, €0.6 million) by other AREOF Group entities. A full provision has been made in the consolidated financial statements against these balances at the current and prior period end.

David Fisher, a non-executive director of the Company, is also a non-executive director of AREOF.

#### 15. RESTATEMENT OF COMPARATIVE

IFRS 15: Revenue from contracts from customers became effective from 1 January 2018. The main impact of the new standard is that performance fees for the Argo Funds can only be recognised at the crystallisation date, when performance fees become due and payable, which is currently 31 December. Thus, performance fees can be recognised at year end but not at the interim date. Revenue for the comparative period has been restated to be in line with the new standard. The impact on profit after tax is set out below:

	30 June 2017 US\$'000
Profit after tax previously reported	4,766
Performance fees derecognised under IFRS 15	(4,045)
Tax adjustment as a result of revenue adjustment	252
Restated profit after tax	973
